

Level 1 Implementation and Impact Options

Directions: Select two of the options below. Write a response to each of your two selected options below. Save your document with your last name at the front of the file name (lastname_filename). Submit your document.

Option #1: In 150 to 250 words, describe how you manage (or would manage) digital devices and a cart in your classroom effectively to maximize learning. Provide specific details of your device management plan.

Option #2: In 150 to 250 words, apply information from Common Sense Media (<https://www.commonsensemedia.org/educators/curriculum>) to develop a persuasive argument of why Digital Citizenship is important for teachers.

Option #3: After your exploration of the Technology Integration Matrix (<http://fcit.usf.edu/matrix/>), where would you place yourself on the Matrix? In 150 to 250 words, reflect on your placement and explain what you could do to move to the next level.

Option #4: Select one of the online databases (Britannica, SIRS, etc.) in Doorway 2 of the BEEP Student Portal. In 150 to 250 words, describe how you plan to incorporate this digital resource in your lesson planning.
