

## **MyOn Information**

Website: [www.myON.com](http://www.myON.com)

Log In: Have students click on the “Log in now” button

School Name: Begin typing Country Isles Elementary, choose

Username: 10-digit student number (06...)

Password: Birthdate with slashes (MM/DD/YYYY)

Once students are logged in, they need to complete the Interest survey. Select the correct smiley face for each category based on their interests. Once completed, at the top of the page, make sure student has selected English or Spanish and click the Save button in the upper right.

Short passages with questions follow the log in. Have students read silently and answer the questions. It will be different for each child as the program will select the proper Lexile level for each student based on how they answer the questions.

Once the questions are completed (stops after student misses 4 questions), a list of books shows up. Students can select from the list or click on “Show More” to begin reading books. They can have the book read to them, or read it on their own. The quiz feature will be turned off over the summer. Minutes read will be logged by the program.

To log out, click the red “X” in the upper right. If a student is in the middle of a book when they log out, the next time they log in, they can continue from where they left off.
